PROFESSIONAL EXPERIENCE

Aircraft Maintenance Engineer Apprentice

June 2025 - January 2026

Air Bravo Corp, Thunder Bay, ON

- Maintained Pilatus PC-12/45 and PC-12/47, Cessna 408 SkyCourier, and Piper PA-31 Navajo aircraft in medivac, cargo, and corporate charter operations
- Performed daily pre-flight inspections, periodic inspections and defect rectification in accordance with the Canadian Aviation Regulations and company Maintenance Policy and Procedures Manual
- Worked in line maintenance servicing aircraft systems, lubrication of airframe, tire and brake changes, configuration changes and rectifying defects keeping aircraft on schedule
- Assisted with turboprop and piston engine maintenance, removal and installation
- Participated in heavy maintenance tasks including structural repairs and modifications, wing removals/installations, windshield replacements, and component and avionic installations
- Troubleshot and rectified faulty aircraft systems and components referencing appropriate maintenance manuals and illustrated parts catalogues
- Maintained accurate task card documentation and accumulated signed maintenance logbook tasks
- Supported line, hangar and heavy maintenance operations while always keeping a clean and safe work environment at all times

Mechanic's Helper

July 2022 - July 2024

Maxim Truck & Trailer, Thunder Bay, ON

- Conducted commercial vehicle safety inspections and preventative maintenance
 - Performed major repairs of engines, pneumatic systems, hydraulic systems, fuel systems, electrical systems and driveline components
 - Followed manufacturers service manuals and repair procedures
 - Reported to Service Manager and customer all updates to repair timeline and any snags
 - Maintained organized tooling, parts inventory and clean workspaces
 - Developed a strong mechanical and electrical troubleshooting ability in a fast-paced, high-demand shop environment
-
