

AEROSPACE MAINTENANCE COUNCIL

COMPETITION

at VERTICON • 2025

Welcome to Dallas!

Where can you witness knowledge, skill, and integrity in action?
Where does the future of aviation maintenance take center stage?

Answer: The Competition @ VERTICON, powered by Vertical Aviation International.

This event brings together professional and student competitors, united in their passion for the craft. Throughout The Competition, knowledge, skill, and integrity are on full display—whether on the competition floor or through the networking and mentorship that naturally occurs among industry professionals. Student AMTs, the future of our profession, experience firsthand the camaraderie and excellence that define this skilled trade.

Those competing in the 2025 Aerospace Maintenance Competition at VERTICON represent the very best from across our industry, putting a face to the “faces behind safety.” On behalf of the Aerospace Maintenance Council’s Board of Directors, we thank you for participating in this premier event celebrating aerospace maintenance. There are no losers here—each competitor has been selected to

represent their respective organization or company with pride. Among the teams competing, the top performers in each category will be recognized as first place winners.

This event would not be possible without the dedication of our volunteers and the unwavering support of our sponsors. Their commitment to excellence ensures that The Competition remains a platform for recognizing the extraordinary talent in our field. Aviation maintenance professionals rarely seek the spotlight, but their contributions are invaluable. The Competition at VERTICON is our way of celebrating their skill, dedication, and impact on aviation safety.

On behalf of the Aerospace Maintenance Council, we wish you all the best of luck—enjoy the competition and have fun!
